About Us

Quality & Excellence since 2007

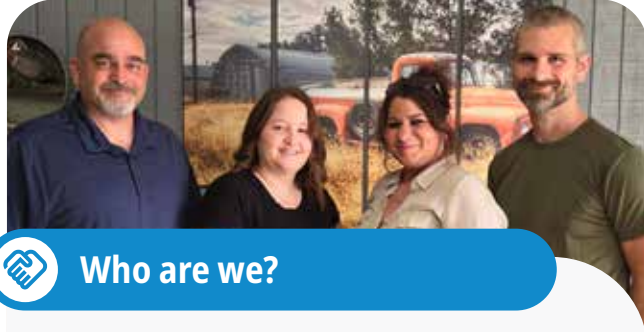

We are a family-owned business specializing in premium metal roofing and building materials, committed to the success of builders and contractors across Georgia.

What makes us different?

Our commitment is to your success. We strive to be your most reliable partner by protecting what's most valuable to your business.

Our **48-Hour Order Turnaround**, one of the fastest in the industry, protects your schedule. The proven quality of our materials protects your reputation, while our expert logistical support protects your bottom line by making every project run smoother.

Who are we?

Since 2007, our family-owned business has been a reliable partner to builders and contractors in Georgia, specializing in premium metal roofing and building materials.

By sourcing from the nation's most respected suppliers, we provide durable products designed to last for decades, ensuring you can build with absolute confidence.

Our entire process is built on delivering **THREE** core values that ensure your project's success.

The Right Product

Premium materials from the nation's best suppliers, backed by industry-leading warranties and proven quality.

The Right Service

Comprehensive logistics and expert support that simplifies your project with superior results, including job site delivery and on-site rollforming.

The Right Price

Transparent and competitive pricing that supports your bottom line and secures your investment

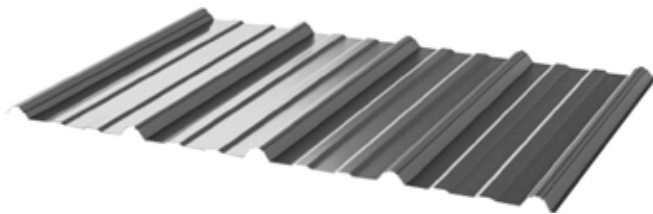

Low-Rib

Our most cost-effective metal roofing

Popular | Great Value | Durable

Low-Rib is the ideal solution for projects where efficiency and affordability are key. This popular panel combines classic, clean lines with durable, high-strength steel construction for long-lasting protection.

Its energy-efficient properties can also help reduce cooling costs, making it a smart and practical investment for residential roofs, carports, post-frame buildings, and a wide variety of other applications.

Galvalume
(20-Year)

Color
(40-Year)

Specifications

- ✓ Exposed fastener panel for roof and wall applications
- ✓ Suitable for solid deck or opening framing

Substrates and Coatings

- ✓ Available in 29 and 26 gauge high-strength steel
- ✓ Protected by an anti-corrosion AZ-50 galvalume coating for painted and AZ-55 for unpainted steel
- ✓ Paint systems backed by 40-year warranty

Disclaimer. All images shown are for illustrative purposes only. Actual product may vary.

High-Rib

Most popular and versatile metal roofing

Superior Strength | Classic Aesthetics | Proven Versatility

As the industry-leading profile for strength and durability, High-Rib is engineered for the most demanding projects.

Its classic aesthetics and multifunctional design make it the ideal choice for commercial, industrial, agricultural, and post-frame buildings, as well as for residential roofing and wall applications.

Specifications

- ✓ Exposed fastener panel for roof and wall applications
- ✓ Suitable for solid deck or opening framing

Substrates and Coatings

- ✓ Available in 26 and 24 gauge high-strength steel
- ✓ Protected by an anti-corrosion AZ-50 galvalume coating for painted and AZ-55 for unpainted steel
- ✓ 26 gauge paint systems backed by 40-year Siliconized Modified Polyester warranty
- ✓ 24 gauge paint systems backed by 40-year white and 20-year galvalume warranty

5v Crimp

Classic and timeless profile

Proven Durability | Enhanced Leak Resistance | Timeless Character

A classic profile recognized for its timeless character, 5v Crimp has long been the trusted choice for rural and agricultural projects. It is also an excellent choice for residential homes, offering a unique blend of traditional style and modern durability.

Its incredible durability is enhanced by a special profile feature - a "U" over "V" design - built specifically to provide maximum leak resistance and lasting peace of mind.

Galvalume
(20-Year)

Specifications

- ✓ Exposed fastener panel for wall applications
- ✓ Suitable for solid deck or opening framing

Substrates & Coatings

Corrugated

The premier accent panel

Versatile Design | Iconic Style | Creative Applications

As our classic profile panel, Corrugated is the traditional staple of agricultural metal roofing applications. Valued for its timeless aesthetics and proven durability, it is now highly recommended for a wide range of accent applications.

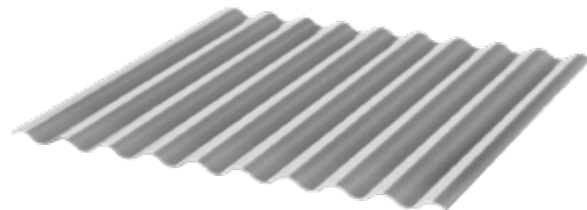

Designers and homeowners use its distinctive texture to create stunning interior and exterior accents, from backsplashes and ceilings to wainscoting and accent walls.

Specifications

Post-Frame Buildings

Post-frame accessories and components

From foundation to ridge cap, we provide the engineered components for a structure built to last.

A durable post-frame building starts with a complete, high-quality system. We provide everything you need, from pressure-treated posts and engineered trusses to the final metal panels, trim, and fasteners. Partner with us to ensure your project has the structural integrity to stand the test of time.

Post-Frame Accessories:

- Clear Span Trusses (14' to 50' 4/12 pitch)
- Clear Span Lean to Trusses (10' to 30' 1/12 pitch, 18" Overhang)
- Bolt Package (*included)
- Post Brackets & Anchors
- Pressure Treated Posts (6x6's 12' to 24' *in stock)
- Engineered Drawings (*available)

Metal Buildings

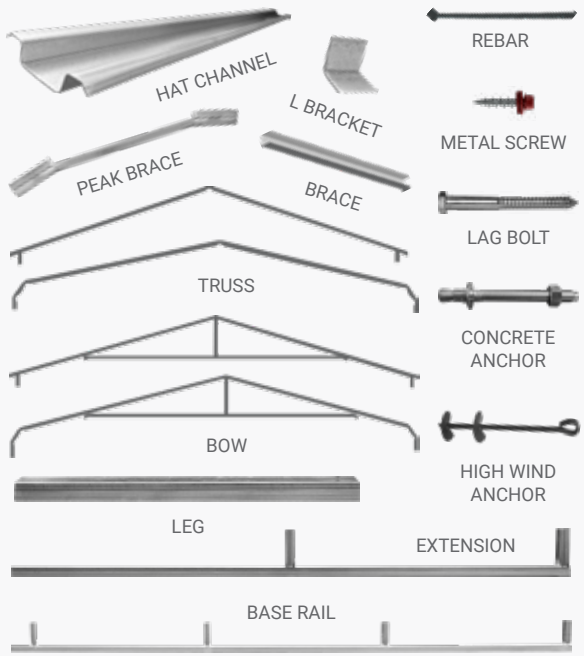

Metal building accessories and components

From residential carports to large-scale commercial buildings, we provide the right system for your project's needs.

We offer two distinct, high-quality systems to match the scale and demands of your project:

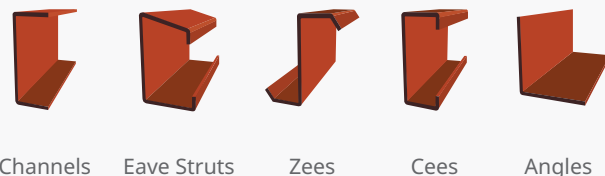

Galvanized Tube Frame

The ideal choice for residential and light commercial projects like carports, garages, and workshops. This system uses durable, pre-fabricated tube components, including hat channel and anchors, with clear spans of 12' to 40' for cost-effective and efficient construction.

Structural Steel (Red Iron)

Engineered for larger, more demanding projects. This heavy-duty system uses Z & C channels and can be paired with MBI insulation, making it the superior choice for commercial and industrial buildings that require wide, clear spans and maximum durability.

Doors & Windows

Garage roll-up doors, walk-in doors, and windows!

Complete your project with high-quality doors and windows from brands you trust, for a finish that's built to last.

We offer a full line of high-performance doors and windows. Our selection includes durable roll-up doors with smooth operation, secure walk-in doors, and stylish windows from trusted, industry-leading manufacturers. Every component is backed by a dependable warranty, with insulated options available to improve your building's energy efficiency.
